## Welcome to rePoint: Empowering Your Financial Future

---

At rePoint, we believe in creating opportunities that empower individuals to achieve financial independence and success. Our innovative platform is designed to leverage the power of blockchain technology, combined with a strategic referral marketing model, to offer unparalleled earning potential.

Whether you are just starting out or looking to scale your income, rePoint provides a structured and sustainable pathway to financial growth.

Our mission is simple: to democratize wealth-building opportunities by providing a transparent, reliable, and rewarding system. With our unique blend of smart contracts and binary referral marketing, we ensure that every participant has the tools and support needed to succeed. We invite you to explore our offerings and see how rePoint can be the catalyst for your financial journey.

In the following sections, you will find detailed descriptions of our key plans, designed to help you maximize your earnings and grow your financial network with ease and confidence.

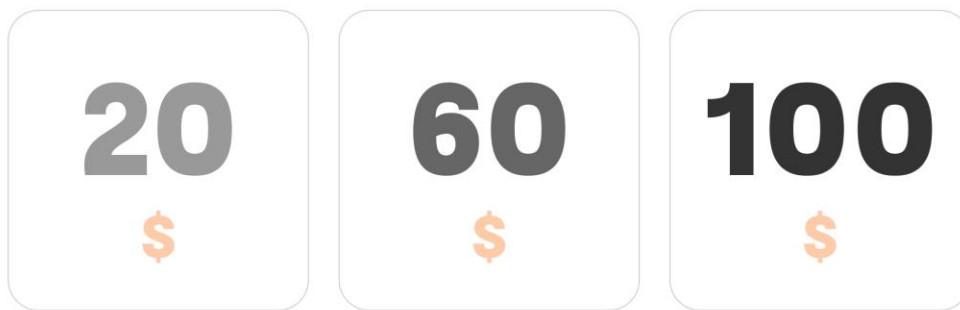

re-Point

# Transforming Opportunities into Financial Growth

## Basic Binary Referral Marketing Plan

In our Basic Binary Referral Marketing Plan, participants join the system by investing \$20, \$60, or \$100 via our smart contract. By introducing a minimum of two individuals, participants begin to build their sales network.

The calculation of daily and monthly commissions is based on "points," and for every person referred, 15% of the individual's purchase amount is directly credited to the referrer's decentralized wallet.

## Commission Distribution Breakdown:

### 1. Referral Bonus (15%):

Upon each investment, 15% is immediately credited to the referring wallet, ensuring direct and instant rewards.

### 2. Daily Earnings (70%):

Seventy percent of the total investment is allocated for daily rewards, distributed based on the participant's binary balance.

Each balance consists of \$20 on the left and \$20 on the right, which equates to one "point."

To maintain the value of each point, we have implemented an earning cap:

- \$20 package: 10 points per day
- \$60 package: 30 points per day
- \$100 package: 50 points per day

### 3. Performance Bonus (10%):

Beyond the primary earnings, participants can achieve additional rewards.

If a participant earns at least 50 points in a month, they qualify for a share in the 10% system pool, distributed based on individual performance. For every 50 points earned in the 70% pool, one point is credited in the 10% pool, with a maximum of 30 points per month.

### 4. Development and Fees (5%):

To cover network fees on the Polygon (MATIC) blockchain and for system enhancements, 5% of all investments are allocated to the developers and system maintainers.

## Plus Binary Referral Marketing Plan

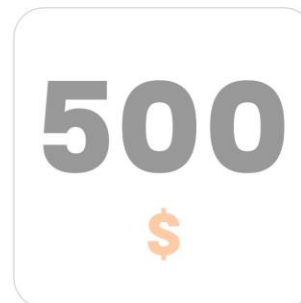

To join the Plus Binary Referral Marketing Plan, participants must first be part of the Basic Plan and achieve a total volume of \$2,000 on both the left and right sides of their binary tree. Once this condition is met, they can expand their earnings potential by investing an additional \$200 into the Ripoint smart contract, with the possibility of increasing their income by up to tenfold.

**It's important to note that in this plan, there is no need to recruit new members; the existing organization from the Basic Plan automatically transitions into the Plus Plan.**

### Commission Distribution Breakdown:

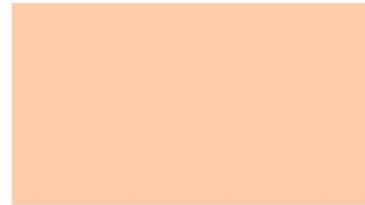

1. **Daily Pool (70%):** Seventy percent of the \$200 investments are stored in the daily pool and are distributed every 24 hours based on each balance of \$200 left to \$200 right. Each "point" in this plan represents a \$200 balance. The daily earning cap is set at 50 points.
2. **Weekly Pool (10%):** Ten percent of the \$200 investments are reserved in the weekly pool and distributed every seven days based on a balance of \$2,000 left to \$2,000 right. The weekly earning cap is set at 7 points, or 28 points per month.
3. **Monthly Pool (10%):** Another ten percent is allocated to the monthly pool, distributed every 30 days based on a balance of \$10,000 left to \$10,000 right. The monthly earning cap is set at 30 points.
4. **Basic Plan Support (5%):** Five percent of the \$200 investments are transferred to the Basic Plan's 70% pool to help maintain the value of the points in that plan.
5. **Development and Fees (5%):** As with the Basic Plan, 5% is allocated for network fees and system development.

- **If a person is not enrolled in the Basic Plan, they can upgrade to the Plus Plan by paying \$500.**
- **If their balance is less than \$2000, they can pay the difference of \$500 to qualify for the Plus Plan. In this case, \$100 will be applied to the Basic Plan and the remaining \$400 will be allocated to the Plus Plan.**

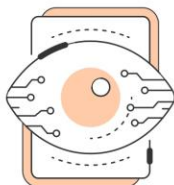

## Introducing the rePoint Trading Bot: Smart Investing Made Simple

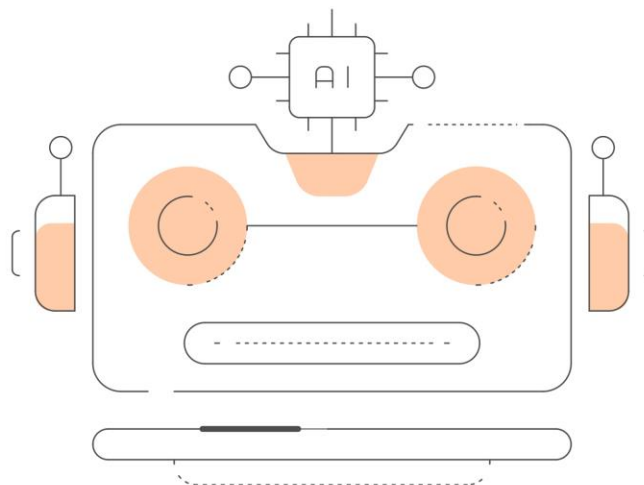

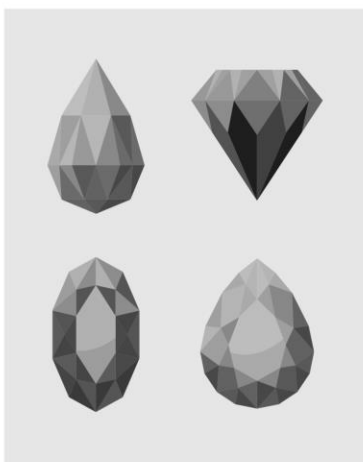

In addition to our powerful binary plans, we are excited to offer our users a cutting-edge trading application. This application features an advanced trading bot, designed to help you maximize your returns with ease and efficiency.

Our trading bot is equipped with a sophisticated artificial intelligence (AI) engine and a robust trading strategy that works tirelessly to grow your investments. Users can deposit any amount of Tether (USDT) into the application, and the bot will begin trading on their behalf, leveraging the deposited funds.

The bot offers monthly profits through four distinct plans, tailored to meet various risk appetites and investment goals. Whether you're a conservative investor looking for steady growth or an aggressive trader aiming for higher returns, our trading bot provides a flexible and powerful solution to suit your needs.

## Advanced Trading Bots with Unique Strategies

rePoint offers a suite of four specialized trading bots, each designed with distinct strategies to meet diverse trading needs. Here's a brief overview of our trading bots:

- Updates: Every 5 days
- Strategy: Focuses on trending markets
- Timeframe: 15-minute intervals
- Trading Frequency: High number of trades

**RUBY** Bot is optimized for high-frequency trading in trending markets, providing frequent updates to capitalize on short-term market movements.

- Updates: Every 15 days
- Strategy: Operates in trending markets
- Timeframe: 1-hour intervals
- Trading Frequency: Low number of trades

**Topaz** Bot is tailored for those who prefer less frequent trading. It focuses on medium-term trends with fewer trades, offering a more measured approach.

- Updates: Every 12 days
- Strategy: Targets ranging markets
- Timeframe: 15 and 30-minute intervals
- Trading Frequency: Low number of trades

**Garnet** Bot excels in stable or sideways markets, executing trades at lower frequencies to capture price movements within a range.

- Updates: Every 7 days
- Strategy: Engages in sharp, high-volume markets
- Timeframe: 30-minute intervals
- Trading Frequency: Low number of trades, minimal losses

**Lapis** Bot is designed for volatile markets, focusing on minimizing losses while handling high-volume trades with a careful approach.

Our diverse range of trading bots ensures that whether you prefer high-frequency trading, less frequent trades, or strategies tailored to specific market conditions, rePoint has the right tool to support your trading goals.

Our advanced trading bots are equipped with sophisticated strategies that ensure effective risk and asset management. Each bot utilizes a combination of cutting-edge tools such as order blocks, market structure analysis, RSI trendlines, Ichimoku cloud, divergence, ADX, volume analysis, and multi-timeframe candles.

By leveraging Repoint's artificial intelligence, these bots accurately identify and validate key supply and demand zones, enhancing trade precision.

The bots are designed to open trades with appropriate volumes and logical stop-loss limits, while continuously monitoring market conditions. This careful approach minimizes potential losses and ensures that your assets are protected from high risks, providing a secure and profitable trading experience.

## Investment Cap and Enhanced Security Measures

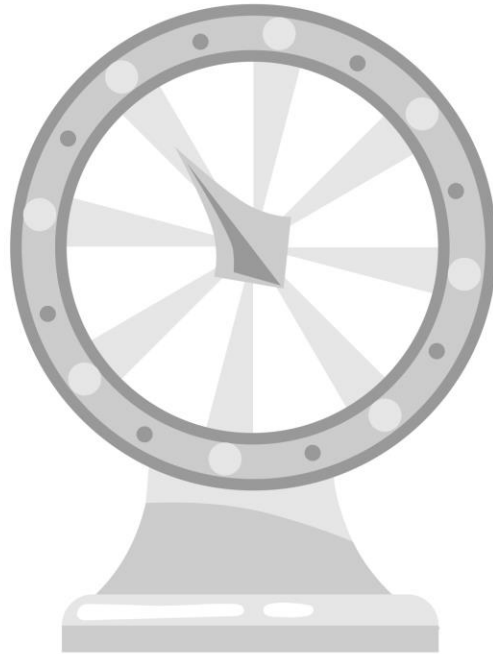

To ensure the highest levels of security and compliance, our trading bot has a strict investment cap of \$5,000 per user. This limit is implemented to prevent security risks, such as money laundering, and to protect the integrity of our platform.

For users who wish to invest more than \$5,000, we offer the option to integrate with third-party exchanges such as **OKX** and **Bybit** through **API access**.

This allows for larger investments while maintaining the same robust security protocols, giving users the flexibility to expand their trading activities with confidence.

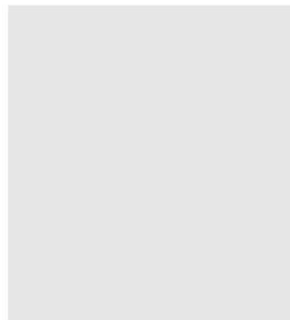

## Exciting Digital Currency Lottery

At rePoint, we offer our users the thrilling opportunity to participate in digital currency lotteries. By purchasing tickets, users can enter various lotteries available on our platform, each offering unique and enticing rewards.

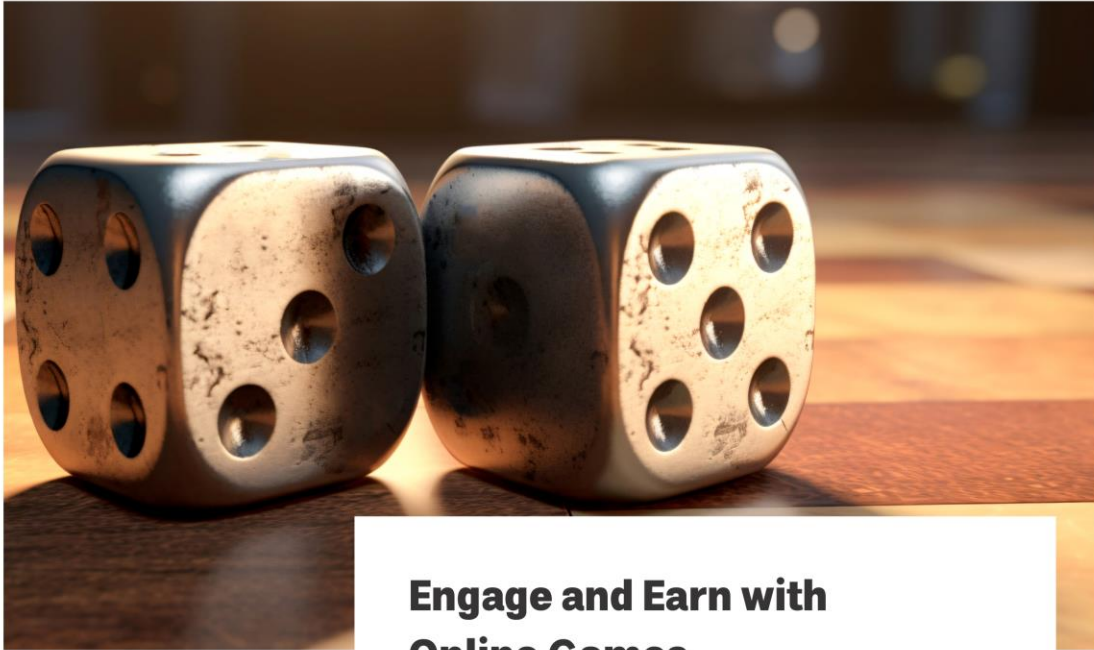

With every ticket purchased, participants increase their chances of winning, making our lotteries not only a game of luck but also a strategic opportunity to maximize potential rewards. Multiple lotteries are frequently available simultaneously, each with different conditions and prize pools, providing an engaging and dynamic experience for our users.

## **Engage and Earn with Online Games**

---

At rePoint, we offer a diverse selection of online games where users can enjoy entertainment while also earning rewards.

Our platform is designed to combine fun with financial opportunity, allowing users to engage in various games that are not only exciting but also profitable.

Whether you're a casual gamer or a dedicated player, our games provide a unique chance to turn your skills and time into real earnings, making your gaming experience both enjoyable and rewarding.

---

## RPT Token Airdrop

As part of our commitment to rewarding our community, rePoint offers an exclusive airdrop of our native token, RPT. This airdrop provides users with the opportunity to earn free RPT tokens simply by participating in our platform's activities or by meeting specific criteria set by the Repoint team.

The RPT token airdrop is designed to enhance user engagement and foster long-term loyalty within our ecosystem. By holding and utilizing RPT tokens,

users can unlock additional benefits and features within the Repoint platform, making their experience even more valuable.

## Launching a High-Performance Decentralized Exchange

At rePoint, we are dedicated to advancing the digital currency ecosystem by developing a state-of-the-art decentralized exchange (DEX). Our DEX is designed to provide users with a seamless and secure trading experience, offering a wide range of features and tools to meet the needs of both novice and experienced traders.

With our decentralized exchange, users can trade digital assets directly from their wallets, ensuring full control over their funds without the need for intermediaries.

The platform is equipped with advanced functionalities such as real-time trading analytics, liquidity pools, and support for multiple blockchain networks, making it a comprehensive solution for all your trading needs.

By prioritizing security, transparency, and user autonomy, Repoint's DEX stands out as a professional-grade platform that empowers users to trade with confidence and efficiency.

## Prop Trading Opportunities for Repoint Traders

At rePoint, we offer exclusive proprietary trading (prop trading) opportunities to our valued traders. This initiative allows skilled traders to leverage our capital and resources to trade on our behalf, with the potential to earn significant profits.

Our prop trading program is designed to identify and support top-performing traders within the Repoint ecosystem. By participating in this program, traders gain access to advanced trading tools, strategic insights, and substantial trading capital, all while benefiting from a structured and supportive environment.

Through our prop trading program, traders can enhance their trading strategies, expand their market reach, and maximize their earning potential, all while contributing to the growth and success of the rePoint platform.

## Minting Diverse NFTs with Exciting Features

At rePoint, we are thrilled to offer a unique minting experience for our users through a variety of NFTs (Non-Fungible Tokens). Our platform provides users with the opportunity to create and mint exclusive NFTs, each featuring distinctive and engaging attributes.

With our NFT minting service, users can unlock a world of creativity and digital ownership, benefiting from a range of innovative features and utilities. Each NFT minted on our platform comes with its own set of special characteristics and functionalities, designed to enhance the overall user experience.

## Introducing a Professional Decentralized Cryptocurrency Wallet

At rePoint, we are excited to unveil our advanced decentralized cryptocurrency wallet, designed to offer a comprehensive and user-friendly experience for managing your digital assets. Our wallet combines robust security features with a range of powerful tools to enhance your cryptocurrency interactions.

Key features of our decentralized wallet include:

**Seamless Digital Asset Management:** Manage, store, and transfer your cryptocurrencies with ease and security, ensuring full control over your funds without the need for intermediaries.

**Advanced Swap Functionality:** Enjoy the convenience of swapping Polygon (MATIC) to **RPT tokens** and vice versa directly within the wallet. Our integrated swap feature allows for quick and efficient conversions, enhancing your trading flexibility.

**Enhanced Security:** Benefit from state-of-the-art security protocols designed to protect your assets and personal information, providing peace of mind as you manage your digital portfolio.

**User-Friendly Interface:** Navigate through a sleek and intuitive interface that simplifies your interactions with various cryptocurrencies, making it accessible for both novice and experienced users.

Our decentralized wallet is built to offer an exceptional level of functionality and convenience, making it an essential tool for anyone looking to optimize their cryptocurrency management experience.

## **Join the rePoint Revolution**

rePoint is at the forefront of the digital currency revolution, offering a suite of innovative solutions designed to empower users and maximize their financial potential. From our dynamic binary referral plans to our cutting-edge trading bot, decentralized exchange, and NFT minting platform, we provide comprehensive tools to enhance your digital experience.

With our commitment to security, user-centric features, and groundbreaking technology, Repoint is more than just a platform it's a community dedicated to achieving success together. Explore our offerings today and be part of a transformative journey in the world of digital finance.

Thank you for considering rePoint.

We look forward to supporting you  
on your financial journey.
